Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. THE UNDERSIGNED WOULD INFORM I the citizens of Nashville and vicinity that he has established an agency for the sale of the celebrated "STOEFFL'S ARTIFICIAL ARM," justly prenounced by the Medical Profession, and those who have tried it, superior to any similar invention in use. Its chief merits are simplicty, lightness and freedom of movement. The construction is such that it NOTTON FACTORS and COMMISSION may be taken apart and repaired if necessary, (composed as it is of a number of pieces,) the [oc6-d3m] weight does not exceed 14 pounds, so that it may be raised with perfect ease, no matter how near to the body the arm may have been amputated, while it is so constructed as to obtain all the movements of the natural limbs, and with a high degree of perfection. The hand and fingers are made to work as in nature, and thus the smallest article may be grasped. In short, it comes nearer filling the office of the natural limb than anything of the kind extant.
